Bmw

UPDATE****Valentines Day Special Jan.14th-Feb14th All forum members receive 15% off fuel injector overhaul service***** Introduction: This article is intended to help owners of cars with Bosch Motronic Fuel injection perform their own service. The article is based on the Original Bosch Motronic system used on the 1987 E28 BMW 535i. This article is intended to help owners of cars with Bosch Motronic Fuel injection perform their own service. The article is based on the Original Bosch Motronic system used on the 1987 E28 BMW 535i. While this article is primarily intended as a fuel injection article, it will include testing information for some components of the ignition and ...Background information. The Bosch D-Jetronic is an electrical Gasoline injection system which was introduced in 1967. With the help of the electronic control unit a more precise fuel metering is possible (compared to conventional carburetors) so that the more stringent emission standards could be matched. 16 - Canister The Motronic system is also a Multipoint system. It differentiates from the LE-Jetronic for having, in addition to the injection system, also the ignition system incorporated in the command unit. It features a Lambda Probe aggregated to the injection system, installed in the exhaust pipe. The Motronic system is digital.
