

# Download Critical Care Procedure Manual For Australia

The AACN Procedure Manual for Critical Care, 6th Edition presents procedures for the critical care environment in an illustrated, consistent, and step-by-step format. The Procedures and Patient Monitoring sections are presented in a tabular format that includes special considerations and rationales for each intervention. ON-LINE ICU MANUAL The target audience for this on-line manual is the resident trainees at Boston Medical Center. The goal is to facilitate learning of critical care medicine. In each folder the following items can be found: 1. Topic Summary –1-2 page handout summary of the topic. This is written with a busy, fatigued resident in mind. Critical Care Services Guidelines for Use of Critical Care Codes (99291 and 99292) In order to reliably and consistently determine that delivery of critical care services rather than other evaluation and management (E/M) services is medically necessary, both of the following medical review criteria must be met in addition to the Current Procedural Terminology (CPT) Manual definitions: Fellows at UC Davis have the opportunity to learn and practice a variety of procedures. With no interventional fellows and a closed ICU, the UC Davis pulmonary and critical care fellows hone their skills to prepare for independent practice in the full range of Critical Care procedures.
